

## QUALITY POLICY

The goal of *Max-Polska sp. z o.o.* is the manufacturing and sales of high quality goods made of plastic and systematic recognition of our customers' needs and expectations.

By introducing the system IATF 16949:2016 together with PN-EN ISO 9001 we are pursuing the following aims:

- ✓ achievement of our customers' satisfaction in the domestic and international market,
- ✓ increase of our workers' and stakeholders' satisfaction,
- ✓ achievement of long-term success of our company.

The above goals we desire to realize through:

- ✓ employment of competent and qualification-raising staff,
- ✓ commitment of employees in the manufacturing of goods according to customers' requirements,
- ✓ workplace organization based on 5S methodology,
- ✓ manufacturing process realized in accordance with customers' requirements,
- ✓ realization of our customers' orders on time,
- ✓ clear and precise estimation of our customers' needs,
- ✓ use of modern technology of injection together with accompanying processes,
- ✓ constant optimization of manufacturing costs.

All the employees working for the company are informed about the conducted quality policy.

The policy is announced to all the interested parties.

We desire our company to be perceived as a reliable, flexible and stable supplier of high-quality goods made of plastic.
